Incident/Investigation Report

Agency: FCPD

Case Number: 2017-3210249

Date: 10/22/2018 15:30:31

Notes/Narratives

FAIRFAX COUNTY POLICE OFFICERS WERE DISPATCHED TO ASSIST US PARK POLICE UNITS THAT WERE ACTIVELY IN A PURSUIT OF A VEHICLE THAT WAS INVOLVED IN A "HIT AND RUN ACCIDENT".

INFORMATION THAT WAS BEING RELAYED TO FAIRFAX COUNTY UNITS WERE THAT THE PURSUIT WAS TRAVELLING SOUTH BOUND ON THE GEORGE WASHINGTON PKWY.

██████████ ADVISED THAT ██████ HAD JUST CAUGHT UP TO THE PURSUIT AND WAS BEHIND THE US PARK POLICE UNIT.

██████████ ██████ UPDATED THEIR LOCATION TO BE ON ALEXANDRIA AVE AND FORT HUNT RD. ██████ THEN ADVISED THAT THE SUSPECT HAD WRECKED AND THAT US PARK POLICE UNITS HAD FIRED SHOTS.

ONCE I GOT ONSCENE, I OBSERVED A DARK COLORED SUV THAT APPEARED TO HAVE RUN OFF THE SIDE OF THE ROAD INTO THE DITCH ON THE NORTH BOUND SIDE OF FORT HUNT RD AND ALEXANDRIA AVE. A US PARK PD OFFICER WAS AT THE DRIVER'S SIDE WINDOW OF THE DARK COLORED SUV (SUSPECT'S VEHICLE) AND WAS ATTEMPTING TO FREE THE DRIVER FROM THE VEHICLE BY SMASHING OUT THE DRIVER'S SIDE WINDOW WITH ██████ BATON.

IT WAS LEARNED THAT THE DRIVER MAY HAVE BEEN SHOT SO THE US PARK PD OFFICER WAS ATTEMPTING TO EXTRACATE THE DRIVER TO RENDER AID. OFFICERS ONSCENE ALSO ADVISED THAT SUSPECT MAY HAVE BEEN INJURED AND REQUESTED FOR RESCUE TO RESPOND. OFFICERS WERE ABLE TO EXTRACATE THE DRIVER AND BEGAN TO RENDER AID.

FIRE DEPT PERSONNEL ARRIVED AND THE DRIVER OF THE FLEEING VEHICLE WAS TRANSPORTED TO FAIRFAX HOSPITAL BY AMBO/MEDIC ██████ (ALEXANDRIA CITY FIRE DEPT). I WAS ABLE TO FOLLOW AMBO/MEDIC ██████ TO FAIRFAX HOSPITAL.

ONSCENE AT FAIRFAX HOSPITAL, THE DRIVER/SUSPECT WAS RUSHED TO TRAUMA ROOM #1 WHERE HE WAS BEING TREATED. THE DRIVER/SUSPECT WAS EVENTUALLY TRANSPORTED TO THE THIRD FLOOR (ROOM F-3.12/I.C.U.) WHERE HE WAS CONTINUED TO BE TREATED.

DR. ██████████ ADVISED THAT THE DRIVER/SUSPECT'S CONDITION WAS NOT SURVIVABLE. IT APPEARED THAT THE DRIVER/SUSPECT HAD SUFFERED MULTIPLE GUN SHOTS TO ██████████ AND THERE WAS STILL ██████████ BULLETS THAT REMAINED IN THE ██████████ THERE WAS ALSO A BULLET WOUND TO THE DRIVER/SUSPECT'S ██████████ AREA.

██████████ MET US AT FAIRAX HOSPITAL AND BECAUSE ██████ WAS SUPPLEMENTAL CRIME SCENE ██████ ASSISTED DET. ██████████ (US PARK POLICE) WHO WOULD BE INVESTIGATING THEIR OFFICER INVOLVED SHOOTING.

DET. ██████████ (CRIME SCENE DETECTIVE) ARRIVED AND RELIEVED ME FROM FAIRFAX HOSPITAL.

AS OF THIS TIME THE DRIVER/SUSPECT HAD NOT BEEN POSITIVELY IDENTIFIED.

CLEAR/DARK - STREET LIGHTS

Supplement Notes

On November 17 at approximately 21:45 hours I received a call-out reference this case. I responded to the intersection of Fort Hunt Rd and Alexandria Avenue. Once there, I was asked to pull the "In Car Video" from the SUV bearing County Police Vehicle number ██████. After gaining access to the rear of that vehicle I found that it was equipped with the newer Mark II video system. This newer system does not contain removable storage media. Instead, it contains bays for two "Solid State Drives" (SSDs). When the system access door was opened by an IA supervisor only one SSD bay had a drive installed. The other bay was empty. The CFS has not had any training on this newer type of ICV system. The last information we received regarding this system was that we were not to pull the SSD's or copy the media from the drive. I relayed this fact to the supervisors on scene. The MKII housing was re-closed by the IA supervisor and I took no other actions connected to that vehicle.

Next, I was asked to check the Ford cruiser bearing County Police Vehicle number ██████. That vehicle had the older MKI ICV system with a removable 32GB Panasonic SD card. The video system's housing was opened by the IA supervisor and I took possession of the 32 GB SD card. The usual notes and photographs were taken as I secured the card in a Manilla envelope. I took the SD card back to the CFS facility where I imaged the card's contents via the ██████ forensic software platform. The card's original contents were protected by my use of a software write-blocked USB 3.0 port during the imaging process. I also activated the card's write protection slide lock. The slide lock was returned to its original position once the imaging process was complete and its success verified.

The image files were loaded into the same ██████ software and I located the target video file. The file was quickly viewed by myself, a representative from the Park Police and another IA supervisor. Once that was complete I made two copies of the video. These two copies were burned onto optical media (Disks) along with a copy of the video viewer program. The disks were labeled per my usual routine. Both disks were quickly checked by inserting them into my County-issued Dell PC to make sure the video would run. I also took the opportunity to show the Park Police officer how to access and play the video using the included player program on the disk. When that was done, I gave one disk to the Park Police representative and one to the IA supervisor. I also gave the IA supervisor the Manilla envelope with the original 32 GB SD card.

The original image file from the SD card is included in an electronic case file on my ██████ unit. That case file is named ██████. The pre-examination photographs that I took of the SD card have been included in that case file. Appropriate entries have been made in the CFS ██████. No other form of notes exist for this case.

No further actions taken.

CLEAR/DARK - STREET LIGHTS

Supplement Notes

On 11-17-2017 I responded to the intersection of Fort Hunt Road and Alexandria Ave reference an Officer Involved Shooting. I arrived on scene around 2130hrs and meet with the lead investigators Detective Sergeant ██████████ and Detective Sergeant ██████████ from United States Park Police Department. I was advised by both Detective Sergeant ██████████ and Detective Sergeant ██████████ that their crime scene investigators would be handling the documentation of the shooting incident but would like our assistance with documenting the deceased at Fairfax Hospital. I then assigned Detective ██████████ to respond to Fairfax Hospital and assist USPP with documenting the deceased. (See Detective ██████████ report for more detail of ██████████ actions reference this incident).

I then spoke to USPP Crime Scene Investigator ██████████ and offer any crime scene assistance at the scene which ██████████ stated they did not need any except for obtaining the video footage from the Fairfax County Police Cruisers. I then contacted Second Lieutenant ██████████ who then called out Detective ██████████ from the Computer Forensics Section. I then meet Detective ██████████ at the scene and introduced ██████████ to Crime Scene Investigator ██████████ and Detective Sergeant ██████████ who then assisted USPP as needed.

I then spoke to Internal Affairs investigators who advised me that they wanted a Crime Scene Detective to respond to Mount Vernon Police Station and document all the Fairfax County Police Officers involved with this incident. I then assigned Detective ██████████ to this task who then responded and documented all the officers involved (See Detective ██████████ report for more detail of ██████████ actions reference this incident).

I then stayed on scene until the documentation of this incident by USPP was finished. The only assistance I gave was to make sure our officers had the appropriate roads closed so they could conduct their investigations. No further action was taken by me and below is a list of other Crime Scene Detectives and a Supplemental Crime Scene Officer who were either on scene or assisted with this investigation.

Detective ██████████ and Detective ██████████ from our crime scene unit did respond to the scene off of Fort Hunt Road but no action were taken by them since our assistance was not needed and they were told by me to go back in service. PFC ██████████ who is a supplemental crime scene officer was working patrol out of ██████████ Station and did respond to Fairfax Hospital for the incoming patient from this shooting incident. (See PFC ██████████ report for more detail of ██████████ actions reference this incident).

CLEAR/DARK - STREET LIGHTS

Supplement Notes

On November 22, 2017 I was watching the 11:00 P.M. Fox Channel 5 News when a story came on about this event. This was the first news story I had seen or heard since the incident. [REDACTED]

[REDACTED]

From my previous experience of being on our police department's Peer Support Team and working directly with Dr. [REDACTED] (one of the department's past psychologists) on several Officer Involved Shootings (OIS), attending multiple classes given by the International Critical Incident Stress Foundation (ICISF), attending a two day seminar by the Force Science Research Center and reading several Force Science News articles related to OIS and [REDACTED]

[REDACTED]

[REDACTED] I saw the Park Police officer standing on the driver's side of the Jeep start to shoot. After watching this officer shoot 2-3 rounds, I immediately focused on the Jeep's rear hatch and back doors to watch for a bailout of possibly armed individuals. With my visual concentration on the rear of the Jeep, I heard multiple shots being fired rapidly. Due to the number, speed and staccato pace of the gun shots I believed both officers were firing. When the shooting stopped, I watched the Jeep roll slowly to the right and into the ditch. After the Jeep rolled into the ditch I saw the second Park Police officer standing at the front, driver's side corner of the Jeep with [REDACTED] weapon drawn and saw, I believed, three bullet strikes to the windshield. I concluded the second Park Police officer discharged those rounds before the Jeep rolled into the ditch.

[REDACTED]

I tried to enter this supplement into ILEADS on November 25, 2017, but found "no match" when I searched for case #2017 321 0249. I concluded this case must be "locked" for this investigation.

After being on leave from November 30 to December 17, 2017, I was able to coordinate with FCPD Internal Affairs to enter this supplement into ILEADS.

CLEAR/DARK - STREET LIGHTS

Supplement Notes

OFFICER INVOLVED SHOOTING (United States Park Police)

CSS - ASSIST

On November 17, 2017 (FRI), at approximately 2050 hours, I contacted by 2nd Lieutenant ██████████ and advised to respond to Fairfax Hospital to assist a detective with the United States Park Police with the listed investigation. I arrived at INOVA Fairfax Hospital, located at 3300 Gallows Road, Annandale, Virginia, at approximately 2112 hours. Upon arrival, I was directed to the Trauma Intensive Care Unit (TICU), Room #F3.12. Medical personnel, under the direction of Dr. ██████████ were actively providing medical care to the individual. Scene security was conducted by Officer ██████████ (Fairfax County Police Department) & Officer ██████████ (United States Park Police). Both officers advised that they were not actively involved in the initial incident that led up to the officer involved shooting. Additionally, United States Park Police Detective ██████████ was present to assume investigative responsibilities, and Fairfax County Police Officer ██████████ was requested to assist with photographic documentation of some to the gunshot victim's injuries prior to my arrival.

POLICE PERSONNEL AT THE HOSPITAL SCENE:

Below is a list of officers that were present within the Fairfax Hospital Trauma Intensive Care Unit, throughout my time at the hospital:

Detective ██████████ - United States Park Police / Criminal Investigations Branch: Major Crimes Unit
Officer ██████████ - United States Park Police / Patrol Division
Officer ██████████ - Fairfax County Police Department / Patrol Bureau: Mount Vernon District Station
Officer ██████████ - Fairfax County Police Department / Patrol Bureau: Mason District Station (Crime Scene trained)
Officer ██████████ - Fairfax County Police Department / Patrol Bureau: Mason District Station
Detective ██████████ - Fairfax County Police Department / Cyber & Forensics Bureau: Crime Scene Section

EXAMINATION OF THE PATIENT:

The exact identity of the patient was not verified at the time of my examination, which was post surgery. Due to the amount of trauma to the ██████████ medical personnel were not able to remove any ██████████ After consulting with Detective ██████████ it was requested that I attempt to identify the patient utilizing a mobile Automated Fingerprint Identification System module. Officer ██████████ was requested to the scene to provide a Mobile AFIS module & a Mobile Computer Terminal. Prior to conducting the examination, Detective ██████████ was consulted to determine if ██████████ would want the patient's hands swabbed, or processed for any potential primer residue evidence. Detective ██████████ advised that after consulting with the United States Park Police Crime Scene Investigators, ██████████ did not want anything collected from the hands prior to utilizing the mobile AFIS module. The attempt to positively identify the patient yielded negative results. His hospital identification remained ██████████ An initial request made by the United States Park Police Crime Scene Investigators to cover the patient's hands with paper bags was initially attempted, but subsequently had to be removed by medical personnel due to the monitoring equipment that had to be attached to his hands.

Incident/Investigation Report

Agency: FCPD

Case Number: 2017-3210249

Date: 10/22/2018 15:30:32

Throughout the evening, the patient's preliminary information was tentatively identified as follows, based upon a secondary name listed to the vehicle registration for the motor vehicle that he had been operating at the time of the initial incident:

██████████ Bijan Caesar
DOB: ██████████
Virginia OL: ██████████
White / Male
██████████ ██████████ Virginia ██████████

Medical personnel described the patient's medical status stabilized, but further advised that the sustained trauma was not survivable. I was requested to remain at the hospital to see if the medical status changes. Due to the medical dressing that was in place on various parts of his body, I was not able to photograph any specific injuries. All clothing items that accompanied the patient to the hospital was already in the possession of Detective ██████████ and remained in ██████████ custody.

Medical personnel from the Emergency Room advised that the initial room utilized at the time of the patient's arrival (Emergency Trauma Room #1) was still being locked down for crime scene documentation. I requested that Officer ██████████ respond to the room to document that room, and make a determination that the room is suitable to be reopened.

At approximately 0110 hours, the patient's medical status had not changed, and I was advised that no further assistance was needed. No evidentiary items were collected by this unit.

TRAUMA INFORMATION:

All trauma information was provided to me by the medical personnel at the hospital, along with information passed on to me by Officer ██████████. I was not able to validate any of the information during my time at the hospital. The information provided is as follows:

- potential gunshot wound to the ██████████
- potential gunshot wound to the ██████████
- potential gunshot wound(s) to the ██████████

PHOTOGRAPHY:

The patient was photographed by this unit, post surgery, within TICU Room #F3.12, with a Nikon digital camera. The images were transferred to a DVD-R disk, and will be filed at the Record Room. A copy of the images was provided to Detective ██████████ of the Fairfax County Police Department: Major Crimes Bureau: Cold Case Section. A copy will also be retained in my case file.

All notes & photographs from Detective ██████████ & Detective ██████████ were sent to Detective ██████████ along with additional copies for the lead investigating agency.

NOTHING FURTHER AT THIS TIME.

Officer Involved Shooting
CSS Assist US Park police
2017-3210249

On 11/17/2017, at approximately 2041 hours, I was notified by ██████████ from the Crime Scene Section to respond to the intersection of Fort Hunt Rd and Alexandria Ave to assist US Park Police in reference to an Officer Involved Shooting. I arrived at the scene at about 2110 hours and met with the MCB Detectives and Fairfax County Police Officers. I was then instructed by ██████████ to transport the FCPD Officers to the Mount Vernon District Station to document them. I arrived at the station about 0009 hours and documented the Officers at the CIS conference room. I was later advised that Detective ██████████ from MCB - Cold Cases was assigned this case.

2LT ██████████

Second Lieutenant ██████████ was wearing the Fairfax County Police Department Patrol Uniform as follows: navy blue exterior vest; on the left side of the vest were noted: Fairfax County Police Department supervisor`s badge, large pocket, and handcuff in pouch; on the right side of the vest were noted: name tag, which read: ██████████ pocket, and police radio. Nothing noted on the back side of the vest. The vest was over a gray button down long sleeve uniform shirt with Fairfax County Police Department patches on each sleeve. A navy long sleeve mock neck shirt was observed under the gray shirt. ██████████ was wearing navy blue uniform pants and black boots. ██████████ police issued belt consisted of the following: keys attached to belt keeper, magazine pouch with two magazines, handcuff pouch, baton in holster, (left side) police issued pistol, handcuff key and whistle attached to belt keeper, and OC spray in holster.

FIREARM EXAMINATION:

Semi-automatic police issued 40 Cal Sig Sauer P229 pistol, serial number: ██████████ One cartridge noted in the chamber. One 40 Cal magazine was inserted in the firearm, containing twelve cartridges / capacity of twelve. The hammer was resting forward.

Two 40 Cal magazines from the duty belt and two 40 Cal magazines from the vest pocket. All four magazines contained twelve cartridges each / capacity of twelve.

OFFICER ██████████

CLEAR/DARK - STREET LIGHTS

Supplement Notes

On the listed date I responded to police service for a Park Police unit in a traffic pursuit. The unit stated █ was traveling south on George Washington Pkwy so I drove down the area Collingwood and Fort Hunt road. Once at this intersection it was stated over the radio that the pursuit had gotten off the Parkway at Tulane rd. I then head north to the intersection of Fort Hunt and Wellington. That was when it came over the radio that the pursuit was stopped at Fort hunt and Alexandria. Moments later it was advised that Park Police had discharged their weapons. I arrived on scene just minutes after the shooting occurred and positioned my cruiser to the rear of the Park Police cruiser on the south side of the intersection. I then exited my cruiser and approached the vehicle which was currently in the ditch on the side of Alexandria Ave. I witnessed one of the Park PD officer attempting to break the driver window in order to gain entry into the vehicle. They were able to gain entry into the vehicle unlocking the door through the break in the window. Once the door was opened I was standing directly to the side of the side vehicle ██████████

██████████ The inside of the vehicle was viewed and determined that there were no weapons in plain view or reach of the driver. The rear of the vehicle was also checked with no weapons seen, no other passengers were observed in the vehicle either. There were no drug or narcotics visible to from plain view but I did not search the vehicle. The driver of the vehicle was unresponsive and it was observed that there was a gunshot wound to the ██████ of the driver. There was also a substantial amount of ██████████

██████████ The drivers breathing at this time appeared be ██████ and determined by myself and Lt ██████ that he should be removed from the vehicle and placed on the ground in the recovery position in case there were any fluids blocking his airway. The seat belt was then cut and Officer ██████ and I then removed him from the vehicle and placed him on roadway in front of the Park Police cruiser. The driver was then also checked for any other wounds on his body but no others were located. Rescue was also summoned to the scene by this time to render aid to the driver and they were advised of his condition over radio. Rescue arrived and then rendered aid and then transported him to the Fairfax hospital.
