# ***I. Rental Housing Complex Analysis Summary***

---

This report presents the results of the January 2012 Fairfax County Rental Housing Complex Analysis. The Rental Housing Analysis covers the number of rental units, vacancy rates, square footage, and rental costs including all privately owned rental complexes and subsidized rental complexes in Fairfax County with five or more units. The inventory of rental units also includes condominiums where more than 90 percent of the total number of units are leased. These condominiums, however, are not included in the rent cost and vacancy analyses. The analysis supplies data as of January 2012.

The report summarizes data for the county as a whole, for each planning and supervisor district, and by age of complex, type of structure, and type of unit where appropriate. The total inventory of units includes all of the complexes included in the rent and vacancy analyses plus condominium complexes where 90 percent or more of the units are rental.

Data from the 2012 Rental Housing Complex Analysis indicate that the total number of rental complex apartments and townhouses in Fairfax County was 68,396 units in January 2012. There are 911 more rental

complex units in January 2012 than there were in January 2011.

Average monthly rent in the county for complexes without rent subsidies was \$1,546 in January 2012. This is \$113 higher than that reported in January 2011, representing a 7.9 percent change.<sup>1</sup> The rents of these units are considered fair market rents.<sup>2</sup> The average fair market rent excludes subsidized units, affordable dwelling units, and workforce housing units. Average monthly rent for fair market rate rental housing units in Fairfax County ranges from \$1,131 for efficiency units to a high of \$1,961 for three-bedroom with den units. Average monthly rent for units in subsidized rental housing complexes was \$1,169 in January 2012. This is \$18 less than that reported in January 2011.

The vacancy rate for all rental complexes, those with and without subsidies, is estimated to be 5.5 percent as of January 2012. The 2012 vacancy rate is 0.5 percentage points higher than that in 2011 (5.0 percent).

---

<sup>1</sup> Rental costs were reported for 97.5 percent of the non-subsidized Fairfax County rental units. Not all rental complexes and none of the condominium complexes provided information on rental costs and vacancies. Rental costs and vacancy rates are calculated using information from those complexes that provided information. This report uses the supervisor boundaries approved April 26, 2011.

<sup>2</sup> Starting in 2012, 589 Affordable Dwelling Units (ADUs) and Workforce Housing Units (WHUs) were excluded from the fair market rent calculation and are now captured in the subsidized rent calculation.

## II. Rental Housing Inventory

As of January 1, 2012 there were a total of 68,396 rental complex housing units in Fairfax County. There was an increase of 911 rental units on the market between January 2011 and January 2012. This equates to a 1.3% increase of rental complex units during 2011.
