

January 2021

**Neighbors,**

**Happy New Year!** I am **energized and optimistic** as we welcome 2021 and a COVID-19 vaccine! We have many **new opportunities, projects and events** planned this year. You will soon be receiving my **annual Advisor mailer** with more details and a summary of our **2020 key accomplishments and 2021 focuses**.

**2021 will be the Year of the Vaccine, Economic Recovery and Climate Action!**

Virginia and Fairfax both have a **vaccine plan in place** to get immunizations out as quickly as possible, as well as **websites dedicated to information and education** about the vaccines. **When it is your turn**, I truly hope that, like me, you will **get the vaccine** so that we can all return to a **more normal life and social interactions**. Read below for the latest information.

We know many in our community are **experiencing financial hardships**. The County has **pumped millions of dollars into the local economy** and will continue to do all we can to support our **residents, non-profits and businesses**. This will help keep residents fed, in their homes, students learning, businesses open and **jobs increasing as we recover**.

**Needed climate action will happen on many fronts**, and I am excited about proposed federal leadership! **President-elect Joe Biden** has announced a **strong environmental leadership team** and is laying out an **aggressive plan**, including pledging to achieve **net zero emissions by 2050** and **eliminate fossil fuel emissions** from the power sector by 2035. Here in Fairfax, I am leading the adoption of the **Joint Environmental Task Force (JET) goals** that include **carbon neutrality by 2040**, the Community Energy and Climate Action Plan (CECAP) development and initiated the Adaptation and Resiliency Plan.

It is important to take a moment to **recognize my longtime friend, Mount Vernon resident and activist, Mattie Palmore**, who was awarded the **much-deserved 2020 Gerry Hyland Humanitarian Award** for her decades of service to the County, **Richmond Highway corridor** and **Gum Springs residents and community**, as well as her **activism for domestic violence victims**. Read more about Mattie and the award below.

As always, **TEAM MVD and I are committed** to working with you to **address your individual concerns**, deliver a better **quality of life** and ensure every Mount Vernon neighbor, community and business has the opportunity to **reach their full potential**.

Respectfully yours in public service,

A handwritten signature in black ink that reads "Dan Storck".

### Driver Privilege Cards Coming to Virginia

**Beginning January 1**, the DMV will begin implementing their Driver Privilege Card program. **What is a Driver Privilege card?** According to the DMV "a driver privilege card is a **driving credential** for individuals who are **non-US citizens** and cannot meet Virginia's legal presence requirements, making them **ineligible to receive a standard or REAL ID-compliant driver's license** in Virginia." It is important to note that a privilege card **does not provide legal status** and cannot be used as such. This is a **great opportunity** for residents of the Commonwealth that have been **prohibited from driving in the past**. For more information visit the [DMV Driver Privilege Card webpage](#) or contact our office.

## Transportation

### How to Report those Pesky Potholes

Potholes. They are a way of life on the roads, **especially as temperatures fluctuate** this time of year. Please **report potholes** you encounter! **Your car will thank you**. While the Virginia Department of Transportation (**VDOT**) **maintains most primary and secondary roads** in the County, you can look up [who maintains every road](#).

**VDOT's online reporting tool** makes it easier to **pinpoint exactly where** you see a pothole. You can also report potholes **directly from your mobile device** and include images (**\*\*but NOT while driving!**).

You can also **call VDOT at 1-800-FOR-ROAD** (1-800-367-7623) to report potholes or to ask who maintains a road.

---

**LANE MILES TO PLOW: 14,051**

Interstate: 803  
Primary: 1,690  
Secondary: 11,481  
(includes 17,047 subdivision streets)  
Crews work interstates, major roads, and main subdivision roads in priority order.

**PIECES OF EQUIPMENT: 3,500**

**MOBILIZATION**

We monitor the forecast closely and mobilize crews and resources. Trucks report, load, and deploy:

- 12-18 hours before smaller event
- 18-24 hours before large storm

If 2" or more of snow is forecast, residents may see trucks staged in neighborhoods.

**WHAT DOES "PASSABLE" MEAN?**

- In neighborhoods, an 8'-to-10' path for emergency vehicle access.
- Drivable with extreme caution, but is snow packed and not cut-to-curb or to bare pavement.
- Crews will sand hills, curves and intersections to help with traction.

**SNOW MAPS**

In northern Virginia, roads are divided among GIS maps assigned to plow drivers. Interstates and high-volume roads are made passable, then bare pavement where possible. Neighborhood main roads are made passable, then remaining streets and cul-de-sacs.

**CLEARANCE GOALS**

After storm ends:  
2-4": 24 hours  
4-6": 48 hours  
6"+: 72 hours

Crews start treating once precipitation starts.

They start plowing once 2" of snow has accumulated.

**ANTI-ICING**

- Reduces bonding to asphalt and concrete
- Performed if pavement temps are above 20 degrees and weather won't begin as rain
- Most effective during first hour of storm

Depending upon the storm and the window of time, we may perform a partial or full anti-icing treatment of bridges, overpasses, elevated surfaces, primary and/or secondary roads.

**DID YOU KNOW?**

Brine is a mix of 23% salt and 77% water. It is sprayed as a liquid that dries to create white "brine lines" on the pavement.

**HOW RESIDENTS CAN HELP**

- Monitor weather closely, as forecasts can improve or worsen quickly.
- Adjust commutes, telework, or avoid driving during a storm and after until road conditions improve.
- Park in driveways or on the same side of the street.
- Wait to shovel driveways until plows have come, as they will push some snow back.
- Have enough gas, wiper fluid, proper tires, medication, and an emergency car kit.
- Be patient: crews need time and room to work.
- While we do not clear sidewalks, crews are asked to be mindful, especially near schools. There is often limited room to pile snow in significant storms, to make roads passable. Residents and businesses are asked to clear near their properties. Check with your locality for ordinances.

## COVID-19

### Overview

- Our **case data remains high**. We need everyone to stay vigilant - **wear a mask, wash your hands and social distance**.
- There are concerns over a **new strain of COVID-19** in the United Kingdom and now in Colorado, however, **new strains are expected**. Public health officials are **studying the new variant** to learn more about how it spreads.
- There is **no indication** at this moment that this new strain is **less susceptible to the vaccine**.
- A new strain **doesn't change the therapeutics of COVID-19** because treatment of the virus involves **treating the symptoms** and the way it manifests in the human body.
- **More information** can be found on the [CDC website](#) and in this [New York Times Q+A](#).
- [Latest case data for the Fairfax Health District...](#)

## Vaccine

### Vaccine Updates

- The **Fairfax County Health Department** has received shipments of the vaccine and has **begun distribution to health care workers** not affiliated with hospitals. Read more [here](#). Above, **Chairman McKay's video** on why he plans to get the vaccine.
- Listen to **County Executive Bryan Hill** discuss COVID-19 and the vaccine [here](#).
- VDH will continue to follow **CDC prioritization guidelines** and the County will follow the guidelines of VDH and the CDC.
- The [CDC's advisory group recommended](#) the **next phase** of vaccine distribution go to people over **75 and frontline essential workers**.
- These are still quite large groups and VDH will have to **divide these groups into subgroups**. This guidance will come in the next few weeks.
- Currently, we are still in the **first phase** of distribution for **health care workers and long-term care facilities**.
- It should take three to four weeks to distribute the first doses.
- For the **latest on the vaccine**, information can be found on the websites of the [Center for Disease Control](#), the [Virginia Department of Health](#), and the [Fairfax County Health Department](#).

## What to Expect When You Are Vaccinated

According to the CDC, the vaccine **can cause side effects** that will **last for a few days**. After you get the vaccine in your upper arm muscle, **you may experience**:

- Pain and swelling at the injection site (this is most common).
- Fever or chills.
- Muscle aches.
- Tiredness.
- Headache.

This vaccine **requires two doses**. Even if you have side effects, **you should receive the second dose** unless a vaccination provider or your doctor tells you not to get a second shot. [Read more...](#)

## How Will You Know When To Get Vaccinated

- VDH will be launching a **massive communications campaign** to make sure residents know **when it is their turn** to get the vaccine.
- **After receiving the first dose**, you will receive an **information card to remind you** when you need to **take the second dose**. You must receive the **same vaccine for both doses**.

## Vaccine Safety

- Information about **vaccine reactions and side effects** is collected in all the studies and **carefully analyzed before a vaccine is approved**.
- The COVID-19 vaccines have **some side effects** (see above) that are **normal reactions** that go along with your body responding to the vaccine.
- To identify any **rare side effects that may occur**, scientists will be **collecting and analyzing information** from people who are vaccinated, called "**safety surveillance**", just as they do for any other new vaccine.
- While we are always learning more, based on everything we know now, the **benefits of the vaccine in protecting people against COVID-19 are far greater than the risks**.
- [Read more...](#)

## Where to Get Vaccinated

- The **general public** will be able to get the vaccine **wherever you normally receive your flu vaccine**. (*If you still need a flu shot, be sure to get one*).
- Vaccines will be **available at hospitals, public health facilities, private practices, pharmacies, urgent care centers and safety net providers**.

## Cost

- **The vaccine will be free to the public.**

### Hands free, Virginia!

Beginning **January 1, 2021**, it is **against the law to hold a phone or mobile device** while driving. Here are some **alternative options** should you need to make a call:

- Use a **Bluetooth ear piece** for hands free talking
- If you choose to use headphones, please keep in mind Virginia law states you may **only have one ear bud in while driving**
- If equipped, **connect your phone** to your vehicle **through Bluetooth**
- Consider having a **passenger answer your calls** via speakerphone so you can talk hands free
- Use a **cell phone mount** in your car to hold your phone

The law provides **some exemptions**, which include:

- **Reporting an emergency**
- If you are **legally parked or stopped**
- Anyone **operating an emergency vehicle** while in the performance of their official duties
- The use of an **amateur or citizens band radio**
- The operator of any Department of Transportation vehicle during the performance of **traffic incident management services**

As a reminder, if convicted, you will be **fined \$125 for the first offense**. If you are caught again or seen on the phone in a construction zone, the fine is \$250.

**Help keep our roads safe and put your phone down!**
