See all that cardboard?

Recycle it!

Reduce disposal costs: all demo, construction, & renovation projects must now recycle cardboard.

1. Train employees not to "trash" cardboard.

Boxes will be one of the main sources of recyclable cardboard. Flatten them to conserve space.

2. Collect cardboard separately from trash.

You can do this with a separate dumpster or roll-off container: any size will do.

3. Send the cardboard to a recycler.

Your trash company can provide this service, or you can self-haul to any recycling center.

You can reduce disposal costs by recycling cardboard.

Don't pay to throw away cardboard! It's the law!
