

Status Report
on the
Fairfax County Board of Supervisors'
Second Four-Year Transportation
Program
FY 2008 Through FY 2011

Prepared by:
Department of Transportation
Capital Projects and Operations Division

March 2010

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

Capital Program Highlights

- 2 projects were completed since December 2009: Georgetown Pike/Walker Lane, and West Falls Church Bus Canopy.
- 11 projects are under construction: I-495 Capital Beltway HOT Lanes, I-95 Fourth-Lane Widening, Woodrow Wilson Bridge (includes Route 1 and Telegraph Road interchanges), Georgetown Pike Stone Rubble Masonry Signs, Burke Centre Pkwy/Roberts Pkwy, Centreville Road (West Ox Road to Frying Pan Road), Fairfax County Parkway EPG, South Kings Highway/Harrison Lane, Spring Hill Road, Dulles Rail (Phase I), and Lee Jackson Highway Walkway.

Innovative Project Design and Delivery

- Capital Beltway HOT Lanes PPTA - The entire section of I-495 from the Springfield Interchange to just north of the Dulles Toll Road is under construction. Currently, 12 interchanges are under construction including bridge demolition, installation of steel and bridge decks, and utility relocation. Sound wall construction continues throughout the 28 mile corridor (14 miles in each direction). Major traffic switches and/or lane closures have taken place at Braddock Road, Gallows Road, Arlington Boulevard, Lee Highway, I-66, Oak Street, and Route 123 interchanges/overpasses. Scheduled for this summer is the reopening of the Oak Street overpass and the closure of the Idlywood Road overpass. Recently, the exit ramp lanes on I-495 north to Arlington Boulevard have been shifted to a new bridge. For further information, www.VAmegaprojects.com
- Route 28 PPTA - Construction is substantially complete on the "final four" interchanges: Route 28/Innovation (partial interchange), Route 28/Willard Road and Route 28/Frying Pan Road (Fairfax County), and Route 28/Nokes Blvd (Loudoun County). In July 2009, funding was authorized for design only to widen three segments of Route 28 to 4 lanes: SB Sterling Blvd to Dulles Toll Road, NB McLearen Road to Dulles Toll Road, and SB Dulles Toll Road to Route 50.

Dulles Rail

- Construction activities are underway along the entire 11-mile alignment of Phase 1 from the West Falls Church Metrorail Station to the Dulles Connector Road, through Tysons and west to Wiehle Avenue in Reston. The ramp that connects southbound Route 123 to Route 7 is open to westbound Route 7 traffic only. This new pattern will be in effect for approximately three years. Along Route 7, mid-block left turns are being removed. The right lane of SB Route 123 between Scotts Crossing Road and the I-495 Capital Beltway Inner Loop is now closed, and will remain so for approximately two years. For further information, <http://www.dullesmetro.com/>
- The Dulles Corridor Metrorail Project is funding the new Tysons Connector shuttle bus service that provides free rides to and from office buildings, condos and apartments, Tysons Corner Center and Tysons Galleria. The service began in late November 2009, and is operated by the Fairfax Connector bus system.

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

Special Programs Highlights

Pedestrian Program

- **Pedestrian Access and Safety:** Fairfax County participated in the Spring 2010 StreetSmart pedestrian safety and awareness campaign conducted by MWCOG for regionally coordinated pedestrian safety education and police enforcement. FCDOT staff worked with regional partners in developing updated media concepts for focusing attention on the deadly consequences of pedestrians' and drivers' actions, portrayed in new television, radio and print advertising. The Spring 2010 media event featured a speed demonstration of stopping distance impacts to a pedestrian dummy at 25 mph versus 35 mph and 40 mph. As part of the StreetSmart campaign FCDOT staff installed pedestrian safety posters at over 200 bus shelters throughout the County, and installed over 500 pedestrian safety bus cards in all Fairfax Connector buses.

Bicycle Program

- **Wolftrap Road Bike/Ped. Bridge:** Construction is 80% complete. (FCPA is the contractor). The bridge and connecting trail should be opened this spring. Bicycle route signage will be installed by the FCDOT sign contractor.
- **On-Road Bike Lane Initiative:** Six miles of on-road bike lanes were completed in summer 2009. Work is continuing on additional roadway segments including: Wakefield Chapel Road, Westmoreland Street Phase II, Hunter Village Drive, and Gallows Road Phase II. New segments will include: Sleepy Hollow Road (Mason District), Fort Hunt Road (Mount Vernon District), and Huntington Avenue (Lee District). This is a cooperative program between FCDOT and VDOT.
- **County Bicycle Parking Policy and Guidelines:** Staff is completing work on the development of the County bicycle parking standards. This document will provide guidance to both the development community and governmental agencies responsible for the design, installation and maintenance of bicycle racks and facilities. It will also define parking ratios based on land uses.
- **Increase and Enhance Bicycle Parking:** 150 bicycle racks were purchased and delivered in December 2009. The racks are the inverted "U" style rack and will be installed at locations countywide including the Town of Vienna and Town of Herndon. Staff is currently preparing a bid document for the purchase of 48 new bicycle lockers.
- **Vienna Metro-City of Fairfax-GMU Connector:** Work has begun on a bicycle route connecting GMU with Vienna Metro via the City of Fairfax. This is a cooperative project with the City of Fairfax, George Mason University, and the NVRPA.
- **Metrorail Station Area Bicycle and Pedestrian Improvements Study:** Beginning in July, 2009 with a public information meeting, WMATA retained a consultant to undertake a study of bicycle and pedestrian deficiencies and needs at the region's Metrorail stations. Two stations in Fairfax County were chosen as part of this study; Vienna and Huntington. This study will identify bicycle parking needs, access improvements, and safety. This study is being managed by WMATA in coordination with FCDOT, DPZ, and other stakeholders. This study should be completed in the first quarter of 2010.
- **Bike the Sites Map:** FCDOT was awarded a transportation enhancement grant for FY2010 to complete a bicycle map that highlights a route along historic Civil War sites in Fairfax County. This allocation will also fund the installation of wayfinding signage and

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

interpretive markers along the bicycle route. Federal approval to initiate this work is anticipated in summer 2010.

- **Bicycle Master Plan Study:** As requested by the Board, staff has prepared a request for proposals (RFP) for our on-call consultants to prepare a Bicycle Master Plan Study. The study will be phased with the first segment focusing on the Tysons Corner area. Work is anticipated to begin in summer 2010.
- **Bicycle Route Signage-Dranesville District:** Staff is currently preparing sign plans for bike routes in three locations in the Dranesville District.

Safety and Traffic Calming Program

- In conjunction with a planned repaving project, a "road diet" was implemented on a 2-mile section of Lawyers Road east of Reston Parkway. The street was remarked from two lanes in each direction to one lane and a bicycle lane in each direction, separated by a center turning lane. This change is expected to significantly improve safety. Walker Road south of Georgetown Pike "diet" is under design.
- In summer 2008, VDOT implemented an innovative traffic management system called Variable Speed Limit (VSL) to assist drivers approaching the reconstruction of the Telegraph Road interchange, as a part of the Woodrow Wilson Bridge project. VDOT has expanded use of VSL for peak hours, incident management and weather incidents.
- In the first quarter of 2010, seven traffic calming projects were initiated for study. Five projects were approved by the Board and were forwarded to VDOT for installation.

Bus Stop Safety and Access (Bus Stop Improvement Program)

- Fairfax County places a priority on providing safe access to efficient transportation options including pedestrian amenities and transit service. A comprehensive inventory and study of all bus stops in Fairfax County identified undesirable bus stop conditions for priority action. The Board has identified \$2.5 million from the general fund and \$7.75 million in the 2007 Transportation Bond for improvements to priority stops identified in the study.
- 50 sites have been completed since implementing the program. There are currently 21 sites in project development, 113 in design, 8 in land acquisition and 24 under construction.

Bus Shelter Advertising Program

- FCDOT intends to engage in a public/private partnership to aid in the improvement of bus stops, which is expected to raise revenues through the sale of advertising space on bus shelters. The contractor will sell advertising space to subsidize construction, maintenance, and operation of bus shelters, and will share a percentage of the surplus revenues with the County. Bids were received in October 2009.

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

Fleet Expansion and Replacement of Older Buses with Cleaner Buses

- Fairfax Connector is committed to improving its fleet of passenger vehicles. Fairfax Connector has added 107 new transit vehicles to date with "Clean Diesel" buses, which are low-floor and more easily accessible than the older vehicles.
- Twenty-four older buses have been re-built so that additional service life can be realized.
- Fairfax Connector will be placing two orders for an additional 30 "Clean Diesel" low-floor buses for delivery in late 2009/early 2010. Thirteen buses are for fleet replacements and the balance are planned for implementing high priority service.

Conversion of Metrobus to Fairfax Connector in Western Fairfax

- Service began on Monday, June 29, 2009, with Fairfax Connector's new service provider, MV Contract Transportation, Inc. Due to passenger demand, additional trips were added in August 2009 and January 2010. Since the start of service, ridership has increased by over 500 boardings per day (about 17%).

Transit Development Plan (TDP) Activities

- FCDOT transmitted final recommendations including an implementation plan to the Board in February 2010.
- Consultant staff continued work on several ancillary tasks to review Fairfax Connector public information materials and methods of presentation and transmission.

Transit Studies

- In conjunction with planning for the I-95/I-395 HOT Lanes Project, an I-95/I-395 HOV/HOT Lanes Transit/TDM Study was initiated in 2007 at the request of the Secretary of Transportation, managed by DRPT. Staff is currently working with the project team to develop park and ride and transit facilities in the corridor in fulfillment of the HOT lane project commitments.
- An I-66 Corridor Transit/TDM Study to optimize short-term corridor bus transit service and define elements of potential Bus Rapid Transit (BRT) service was completed and a Draft Final Report issued in December 2009. Staff is currently working with the State and advisory group to develop short and medium term transit service and facility recommendations for the corridor.
- VDOT and DRPT were asked in early 2008 to restart the process for the I-66 Multi-Modal EIS outside the Beltway. The EIS should address all potential integrated facilities and operations anticipated over the next 25-30 years-plus, and funding for implementation.
- In 2008, a transit circulator study for the Springfield activity center was completed as an element of the Springfield Connectivity Study. A transit circulator study for the Tyson's Corner Urban Center began in summer 2009 in conjunction with replanning efforts underway for Tyson's.

West Ox Bus Operations Center

- The County's West Ox Bus Operations Center is in full operation as of late June 2009 with revenue service being operated by both the County's Fairfax Connector bus service and the Washington Metropolitan Area Transit Authority's Metrobus service.

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

- In November 2009, five routes operating in the I-66 corridor were transferred from the Herndon Garage to the West Ox Garage. This transfer resulted in reduced deadhead time and mileage.

SPOT Transportation (Special Populations Transportation)

- Seniors On-The-Go! and TaxiAccess are two user-side subsidy taxicab programs managed by FCDOT's Special Populations Transportation programs (SPOT).
- From January 1st to March 26th, the Seniors On-the-Go! registered 40 new participants, for a cumulative total of 4,933 registrants since the program's inception in 2001. 649 coupon booklets were sold during this period with a street value of \$ 21,417.
- TaxiAccess registered 8 new participants in the same time period, for a cumulative total of 551 registrants since the program's inception in 2007. 150 coupon booklets were sold, with a street value of \$ 4,950.
- The SPOT staff also continued distribution of free Senior SmarTrip cards to older adults for use on the local fixed route transit system (bus and rail). Since the beginning of the distribution, Senior SmarTrip cards have been distributed free to over 570 seniors.

Transportation Demand Management (TDM) and Mixed-Use Development

- The County has integrated Transportation Demand Management (TDM) strategies into the land development process and is working to formalize this program. TDM proffers promote alternatives to single occupant vehicle trips. These proffers contain commitments to provide TDM services, goals for percentage trip reduction, and remedies or penalties for non-attainment of proffered goals. The TDM proffer coordinator is negotiating proffers and monitoring implementation and performance of existing proffers.
- A consultant study on integrating TDM into the land use and approval process is progressing. Local data collection to quantify possible TDM reductions was completed in summer 2009. Preliminary recommendations on TDM reductions and parking strategies for transit-oriented development were subsequently reviewed by a steering committee. In spring 2010, the study and recommendations will be completed and discussed in one or more public presentations. If adopted, the study recommendations will lead to more effective TDM strategies and formal arrangements for TDM proffers.
- Preliminary findings from the TDM study were used to inform staff recommendations for the TDM and Parking sections of the draft Comprehensive Plan text prepared for the Tyson's Corner Committee of the Planning Commission.

Telework and Outreach

- The Fairfax County government telework program currently has 1,377 employee participants, and continues to encourage teleworking countywide.
- The Fairfax County Employer Services Program (FCESP) partners with major employers, developers and multi-family complexes to promote and encourage alternative commute options. To date, 201 Fairfax County employers have implemented a Level 3 or 4 transportation benefits program, and another 193 employers have implemented a Level 1 or 2 program. Level 1 and 2 programs may include commuter surveys and/or supplying data for a commuter/employee density plot, distributing transit information, implementing alternative work schedules, or hosting an on-site transportation fair. Level 3 and 4 programs may include shuttles to/from transit stations,

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

implementing formal telework programs, offering transit subsidies, providing free or premium parking to carpools and vanpools, or implementing a comprehensive bike/walk program.

- The FCESP is also supporting the Congestion Mitigation Program for Dulles Rail and HOT Lanes construction by coordinating employer and community outreach with regional partners, including VDRPT, VDOT, DATA and TyTran.
- The FCESP also partners with a consultant to review and make recommendations on TDM proffers from developers.

Traffic Flow, Signals, and Congestion Management

- A **Traffic Management Plan (TMP)** is underway for the Capital Beltway HOT Lanes and other Northern Virginia Megaprojects to reduce congestion during construction. This includes incentives to reduce demand and promote alternative travel modes. The Tysons Connector midday free lunch shuttle operates in and around Tysons Corner. Motorists can now view real time traffic information, bus schedules, and construction activities via the Traveler Information Displays installed throughout Tysons Corner. The Megaprojects Employer Solutions team is actively meeting with employers to promote commuter solutions including Telework.
- **Real time freeway monitoring system** for Interstates 66, 395 and 95: The application has been deployed and is in daily use. Supplemental tools in use include the NCR's regional integrated transportation information system (RITIS); and, the I-95 Corridor Coalition's INRIX travel time protocol.

Incident Management

- VDOT Regional Operations continues to work with the Virginia State Police and Fairfax County Police regarding quick clearance protocol, and has recently engaged Fire Chief Rohr on this matter also.
- For emergency response, VDOT has initiated a Duty Officer construct which requires executive management personnel to be on-call for highway, weather, and planned incidents. Depending on the nature of an incident, the Duty Officer may initiate a VDOT incident command at PSTOC, which includes representation from VSP, VDOT maintenance, operations, and public affairs as well as coordination with Fairfax County Police and Fire.
- **Incident Management Task Group** (Fairfax County Police, Fire and Rescue, Virginia State Police and towing companies): Starting January 2010, VDOT Regional Operations re-initiated a monthly first responder coordination meeting at PSTOC to review highway incidents and identify improvement opportunities. The incident management task group will continue, and ultimately be merged with the monthly meeting.
- **Comprehensive evacuation plans:** VDOT Regional Operations is providing technical assistance and support to VDEM who are the recipient of a UASI Grant of approximately \$1.5M to investigate emergency evacuation on the NOVA arterial network. This work is a follow-on to that completed for Routes 50 and 1. The objective is to identify appropriate traffic signal strategies. Work began in December 2009.
- **PSTOC and 911:** A December 2009 'introduction' meeting was held with VDOT Regional Operations at PSTOC that included Fairfax County Fire and Rescue, Fairfax County Police, Fairfax County 911, and VSP managers to begin the process of coordination on matters such as highway incidents, weather incidents, and planned

March 2010 Status Report on the Board's Four-Year Transportation Program for FY2008 Through FY2011

Summary of Highlights from January to March 2010

events. Since the 911, Police, and Fire Dispatch groups have only been in the PSTOC a few months, it is expected that there will be continued efforts to institutionalize activities.

- **Pre-Disaster Recovery Task Force:** Fairfax County has received funding from the Department of Homeland Security's Urban Areas Security Initiative (UASI), to prepare a Pre-Disaster Recovery Planning project. FCDOT is working as part of the leadership team, along with other county agencies and community partners. The final project will provide a template for future, long-term regionalized disaster recovery planning, and a single reference for guiding policy and action during this long-term recovery. In summary, the recovery plan will: (1) provide County leaders with goals, priorities, and action to accelerate and streamline Fairfax County's recovery to full functionality; (2) solidify the Office of Emergency Management's strategy for handling disasters at all four phases, as outlined in the Emergency Operations Plan (EOP); and (3) the Plan will support the County's regional partners (NCR) recovery efforts after a regional disaster.

Other Projects

- **AF to RW Third Track Reconstruction Project:** VDRPT, VRE, and CSX, working with Amtrak and the Federal Railroad Administration, identified six projects to increase passenger rail capacity and reliability between Richmond and Washington, D.C. Five of the six projects are complete, and the final project is in progress. This project will construct seven miles of third main line track north of the Franconia-Springfield VRE station and add signal system components. Construction is expected to be complete by spring 2010.

Completed Projects List

March 2010

Rt	Project Description	District	Completion Date
0001	Richmond Highway Public Transp. Initiative (Phase 1)	MV, LE	Oct-07
0007	Leesburg Pike @ Magarity Road	DR, PR	Nov-08
0028	Route 28 @ Willard Road PPTA	SU	Dec-09
0028	Route 28 @ New Braddock Road	SU	Sep-09
0028	Route 28 @ Frying Pan Road PPTA	HM, SU	Dec-09
0050	Route 50 Pedestrian Bridge	MA	Jun-09
0123	Dolley Madison Boulevard @ Ingleside Avenue	DR	Dec-09
0193	Georgetown Pike/Walker Road	DR	Dec-09

6.000	Land Acquisition		N/A	N/A	N/A
Type of Funding:	Utility Relocation		N/A	N/A	N/A
County Bonds	Construction		Mar-08	Sep-11	👍
	Total	6.000	6.000		

Activity Highlights:

Work includes pavement reinforcement, new bus wash bay, new oil separator, additional entry/exit gate, updated plumbing and electrical systems; new offices, storage area, and training rooms

XXXX George Mason University Transit Center

Project Initiation

Construct transit center with up to 10 bus bays and amenities such as shelters and lighted kiosks

District(s): BR, SP
FCDOT Staff: SAN

Implementing Agency:	Project Cost	Project Funding	Schedule		Status
			Start	End	
COUNTY	(\$ in Millions)				
Amount in Board's 4-Year Plan: (\$ in Millions)	Design		TBD	TBD	
1.000	Land Acquisition		TBD	TBD	
Type of Funding:	Utility Relocation		TBD	TBD	
2007 County Bonds	Construction		TBD	TBD	
	Total	1.000	1.000		

Activity Highlights:

GMU has been notified in regards to Fairfax County's project scope; County and GMU continue discussions on how to proceed with the project

XXXX Northern Virginia Community College Transit Center Project Initiation

Construct transit center with up to 4 bus bays and amenities such as shelters and lighted kiosks

District(s): BR
FCDOT Staff: CL

Implementing Agency:	Project Cost	Project Funding	Schedule		Status
			Start	End	
COUNTY	(\$ in Millions)		TBD	TBD	
Amount in Board's 4-Year Plan: (\$ in Millions)	Design		TBD	TBD	
1.000	Land Acquisition		TBD	TBD	
Type of Funding:	Utility Relocation		TBD	TBD	
2007 County Bonds	Construction		TBD	TBD	
	Total	1.000	1.000		

Activity Highlights:

FCDOT continues to work with NVCC Board of Directors to select transit center location on campus; FCDOT held a project meeting on June 16 with NVCC staff.

XXXX Seven Corners Transit Transfer Center Design

Construct transit transfer center at the Seven Corners Shopping Center; Improvements to existing bus stops

District(s): MA
FCDOT Staff: TB

Implementing Agency:	Project Cost	Project Funding	Schedule		Status
			Start	End	
COUNTY	(\$ in Millions)		Jan-07	Feb-10 Apr-10	Δ

1.000	Land Acquisition		N/A	N/A	N/A
Type of Funding:	Utility Relocation		TBD	TBD	Δ
CMAQ	Construction		Jul-10	Jan-11	
	Total	1.182	1.510		

Activity Highlights:

BOS endorsed design 01/12/10; Forwarded endorsement to VDOT on 01/26/10. Final design plans submitted to VDOT on 03/09/10. Utility relocation design ongoing.

XXXX Stringfellow Road Bus Transfer Facility

Project Initiation

District(s): SU
 FCDOT Staff: JYR

Implementing Agency:	Project Cost (\$ in Millions)	Project Funding	Schedule		Status
COUNTY			Start	End	
Amount in Board's 4-Year Plan: (\$ in Millions)			Apr-08	TBD	👍
1.500			TBD	TBD	
Type of Funding:			TBD	TBD	
2007 County Bonds			TBD	TBD	
Total			1.500	1.500	

Activity Highlights:

Project combined with the Park and Ride Expansion; Site survey complete; Agreement between Fairfax County and VDOT approved by BOS September 14, 2009

XXXX Stringfellow Road Park & Ride Lot Expansion

Project Initiation

Construct an additional 300 spaces north of the existing 387 space facility

District(s): SU
 FCDOT Staff: JYR

Implementing Agency:	Project Cost (\$ in Millions)	Project Funding	Schedule		Status
COUNTY			Start	End	
Amount in Board's 4-Year Plan: (\$ in Millions)			Apr-08	TBD	👍
4.000			TBD	TBD	
Type of Funding:			TBD	TBD	
2007 County Bonds			TBD	TBD	
Total			4.000	4.000	

Activity Highlights:

Project combined with Bus Transfer Facility; Site survey complete; Agreement between Fairfax County and VDOT approved by BOS September 14, 2009

XXXX Vienna Metrorail Staircase

Project Initiation

Add new staircase from platform to mezzanine at Vienna Metro Station

District(s): PR
FCDOT Staff: KPR

Implementing Agency:		Project Cost	Project Funding	Schedule		Status
WMATA		(\$ in Millions)		Start	End	
Amount in Board's 4-Year Plan: (\$ in Millions)		Design		TBD	TBD	
2.000		Land Acquisition		N/A	N/A	N/A
Type of Funding:		Utility Relocation		N/A	N/A	N/A
2007 County Bonds		Construction		TBD	TBD	
		Total	2.000	2.000		

Activity Highlights:

The MOU with WMATA was approved by the BOS on June 1, 2009; WMATA Board approved the agreement in summer 2009; RFP draft is under review; Pre-proposal conference scheduled for April 6, 2010; Proposals due April 26, 2010

XXXX West Falls Church Bus Canopy

Complete

Install canopy over both sides of bus bay area

District(s): DR
FCDOT Staff: CL

Implementing Agency:		Project Cost	Project Funding	Schedule		Status
WMATA		(\$ in Millions)		Start	End	
Amount in Board's 4-Year Plan: (\$ in Millions)		Design		Dec-04	Sep-08	☺
